SAP Business Objects BI4 Migration challenges

Deski End of Life

Challenge 1: Track user activity on local PC.

Challenge 2: Track local Deski documents needed to be migrated.

Challenge 3: Convert all remaining deski documents to Webi using the report conversion tool or recreate them from scratch.

Standard BO migration project

Challenge 1: Migrate universes, documents and security. Test them and compare them with the source BO deployment.

Challenge 2: As usual the less Objects you migrate the faster and cheaper the migration will be ...

Challenge 3: Take advantage of the new options/products (unx,LCM...).

License compliance BOLMT

Challenge 1: BI4 includes a SAP BO licenses counting tool. Make sure you are compliant prior sending any data to SAP.

OUR SOLUTION: BI4 Migration pack

Using our products YOU will run easier, faster, cheaper and safer migrations to BI4!!!!!!
OR PERFECT MIGRATION ASSESS

View: Audit the security prior to the migration

Eyes: Audit Deski users before they migrate to BI4 (no longer deski)

Eyes: Detect unused documents (auditor data and Deski data)

Eyes: Detect unused objects within universes (need to be adapted in BI4 with new unx)

Eyes: Detect duplicated reports (different names, same SQL or queries...)

Eyes: Detect unused variables or objects within documents (especially for rep needed to be converted to wid)

Eyes: Compare BO version (like xir2 and BI4) including security, documents (SQL, queries, variables), universes by the way all BO metadata

Eyes: Keep the BOXI auditor data. Impossible to migrate them in BI4

Integrity: Ensure compliance MANDATORY IN BI4 because included inside BI4 BOLMT tool
